When should I start training my dog?

NOW

Why should I train my dog?

To make them a happy well-behaved dog; to prevent behaviour problems; to form a healthy bond with your pet; to establish your leadership and to have fun.

Who in the household should work with my dog?

Everyone! For your dog to respect every member, it's important that they all participate in the training.

When is it too late to start training your dog?

Never! If you've adopted an older dog, training is a great way for you to bond with them. Or if you haven't yet taught your pet how to behave now is the time to start. You CAN teach an old dog new tricks!
